DETAILED ACTION

Notice to the Applicant

1. Claims 1-7, 10-22, and 24-55 are currently pending. The previous rejection of claims 1-56 in the previous Office Action (Paper No. 11) has been withdrawn in light of the restriction requirement provided hereinbelow.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-7, 10-20, and 38-49, drawn to retrieving of patient record management, classified in class 705, subclass 3.
 - II. Claims 33-37 and 50-54, drawn to query processing, classified in class 707, subclass 3.
 - III. Claims 21-22, 24-32, and 55, drawn to generating a database or database structure, classified in class 707, subclass 102.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as querying any data source, unrelated to patient records or healthcare management. Invention II has a separate utility such as developing a database to be used for medical practice management. See MPEP § 806.05(d).

Art Unit: 3626

4. These inventions are distinct for the reasons given above, have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter. The search required for each group is not required for the other groups. (e.g. search for Group I is not required for Groups II or III). As such restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
